

LTECH D series touch panel controller D1

D series touch panel controllers (D1-D8) are wall-mounted LED controllers, widely used for commercial/office/household lighting, workable for dimming, color temperature, RGB and RGBW control. Among them, D5, D6, D7 and D8 are DMX512 control panels, used for DMX512 lamps. In a word, D series could satisfy the controlling demand for all kinds of LED lighting products.

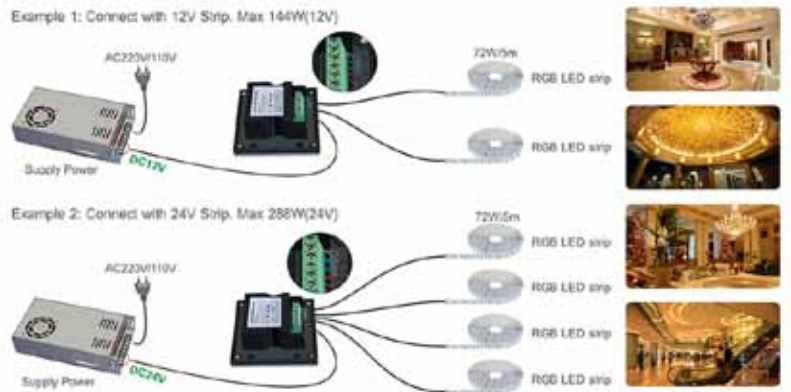

D series touch panel controller absorbs the best controlling technology from other manufacturers. to provide users with more superior items. simple fashion and decent appearance design. Unique structure, super easy to install/remove. Support DMX 512 output(only D5, D6, D7, D8), control DMX lamps. Support 4 zones(Just D5, D6, D7, D8), different zones can be in different control. high accuracy touching IC+special post-processing ,the touching accuracy is highly strengthened. Fool type operation, easy to use. Touching along with chord music & LED indicator. Visual & Auditory & Touch 3 layers to feel the light-changing synchronously. Pioneered T-PWM dimming technology makes an almost perfect dimming/ color-mixing performance.

D1

Input voltage	DC12V~DC24V
Max current load	4A x3CH Max 12A
Max output power	144W/288W(12V/24V)
Working temperature	-30°C~55°C
Dimensions	L86×W86×H36mm
Package Size	L112×W112×H48mm
Weight (N.W.)	210g

Wiring Diagram:

3. Key Functions:

* Long press to turn on/off the buzzer.

4. Green Block:
